## *Make Your Special Event Come to Life!*

More than any other art form, fireworks have an appeal that is universal. The emotional impact of color and sound evokes feelings in spectators both young and old. Never failing to awaken enthusiasm and good spirits, fireworks can make any moment come to life.

Even small accents of fireworks can elevate an event from typical to extraordinary. Whether proximate fountains or aerial salutes, fireworks displays can be used to build anticipation before a performance, punctuate moments of a ceremony, or culminate an evening's festivities with a spectacular surprise. As a sure-fire method to engage a crowd, a pyrotechnic display makes weddings, corporate gatherings, or any celebratory event not just memorable, but unforgettable.

With experience that spans a half century, Stonebraker Fireworks is one of the oldest and largest fireworks companies in Colorado. Stonebraker has all the capability and expertise to entertain entire cities with brilliant displays, but can also bring the magic of fireworks to your own private event. Stonebraker's professional focus ensures that the defining moment to your celebration takes place in a safe and controlled environment.

## *Safety is Our First Concern.*

Whether displays are indoor or outdoor, Stonebraker provides the products and the services to make fireworks worry-free for the event planner. Our professionals take care of all advance fire permitting and documentation, and our expert technicians reliably execute all aspects of the on-site work. All displays follow the strictest safety measures, conforming to NFPA 1123 Code for Fireworks Display and NFPA 1126 Standard for the Use of Pyrotechnics Before a Proximate Audience.
